The following updates returned messages

webform module

Update #7421

- No commonly-known HTML capable module is installed. The option to send HTML e-mail is disabled.

Update #7422

- Webform forms will now be included in the search index only if the Webform "field" is displayed in the "Search index" view mode.

Update #7423

- Webform database tables were successfully adjusted to allow more than one action for each conditional.

Update #7424

- 0 conditionals converted to "isn't" shown.

Update #7425

- Webform e-mails were successfully updated to add the option to exclude empty components.

Update #7427

- Webform submissions were updated with completed and modified timestamps.

Update #7428

- Webforms may now be configured to anonymize confidential submissions.

Update #7429

- Webforms will now resume draft submissions on the page where the submitter left off.

Update #7430

- Webform emails may now be disabled.
